

SPONSORSHIP PACKAGES

HackUDC 2027 is our **5th anniversary.**

We're bringing together 500 developers and tech students at the Faculty of Computer Science, University of A Coruña.

36 hours to build, learn and create.
Join us in shaping Galicia's tech future.

HackUDC is celebrating its 5th anniversary with its biggest edition yet.

What started with just 53 hackers has grown into one of Spain's biggest meeting points for student tech talent. For our fifth edition, we're aiming to bring together **500** hackers for 36 hours of hacking at the Faculty of Computer Science in A Coruña.

Last year, students from 30+ Spanish cities and 10+ academic institutions joined us. And the impact goes beyond the weekend: across our first four editions, participants have found internships and jobs at sponsor companies, turning connections made at the event into real opportunities, making HackUDC a place where students, companies and Galicia's tech community grow together.

BRAND & COMMUNITY

Put your company at the heart of Galicia's growing tech community through stands, talks, workshops and direct interaction with hundreds of young developers.

RECRUITING

Meet talented students before they enter the job market. Participants from previous editions have already found internships and jobs at companies they first met through HackUDC.

BUILD WITH US

Bring a real challenge, mentor teams and see what hundreds of hackers can build around your technology and ideas in just 36 hours.
